

Join other schools in a day of action across Norfolk to show that

# REFUGEES ARE WELCOME

Teachers up and down the country are finding that coverage of refugee migration in the news has sparked both questions and concerns among their pupils. Now in its 3<sup>rd</sup> year, Norfolk Welcomes is an initiative designed to help teachers engage children in productive conversations about this timely and complex topic, using the lens of local histories of sanctuary. Scheduled for Friday 12<sup>th</sup> June, this fun and engaging day will offer useful context in advance of Refugee Week (15-19 June) and will:

- build understanding of the experiences and contributions of refugees and asylum seekers
- introduce children to Norfolk's long and rich history as a place of refuge
- raise money to support local refugee and asylum-seeking communities
- help create a culture of welcome for those seeking sanctuary
